OR

A full day tour to MONET'S GARDEN in Giverny & THE PALACES OF VERSAILLE

CLAUDE MONET lived for forty-three years, from 1883 to 1926, in his house in Giverny. With a passion for gardening as well as for colours, he conceived both his flower garden and water garden as true works of art. Walking through his house and gardens, visitors can still feel the atmosphere which reigned at the home of the Master of Impressionism and marvel at the floral compositions and nymphéas, his greatest sources of inspiration.

THE PALACE OF VERSAILLES is an opulent complex and former royal residence outside of Paris. It has held sway in the public imagination for years because of its architectural grandeur and political history.

"To the public imagination, Versailles is the epitome of opulence," said Louise Boisen Schmidt, a Denmark-based writer at This Is Versailles. "It represents an age in French history of both France's rise as a fashion and power centre as well as the dramatic — and bloody — decline of the monarchy."
